Former State Senator Edgar T. Brackett, of Saratoga, has been retained by the Anti-Saloon League as counsel

Brackett, of Saratoga, has been retained by the Anti-Saloon League as counsel in the proposed investigation by the State Assembly.

"God's people certainly shall be adequately defended," said Mr. Brackett, when asked to lead the legal battle against the "wets." Ex-Senator Brackett is a Methodist.

For the last week he has been looking into the situation at Albany, and it is said that he is in possession of a fund of information and record data that will make interesting reading when it is presented. William H. Anderson, state superintendent of the league, said yesterday:

Anderson's Statement

"Senator Brackett has been employed by the Anti-Saloon League, not to procure the suppression of any truth in which the public has even the slightest valid interest, but to bring out all of the truth that is in any way pertinent, and to make sure that the investigation is genuine and honest investigation is started it shall not break down and stop before the league has secured the very best legal talent in order to make certain that when the investigation is started it shall not break down and stop before the league has its innings. Senator Brackett can get into the record the facts in the league's favor or make their suppression more dangesous than their admission.

"This matter has gone so far that the Anti-Saloon League has its innings. Senator Brackett can get into the record the facts in the league's favor or make their suppression more dangesous than their admission.

"The Anti-Saloon League never has sought popularity with the Assembly. It has been impossible for anybody to be really true to the prohibition constituency in the matter of aggressiveness and be on good terms with the General Assembly of New York the way it has done the bidding of the liquor interests for many years.

"The Anti-Saloon League was determined to focus the attention of the state on the question of prohibition enforcement this year, regardless of the consequences. If, in addition to that, we succeed in getting the gas let out of the old investigation bluff, there has been that much gain.

It is entirely proper for the Legislature to inquire whether any law has been violated.

Defies Assembly to Act

"The public will fully understand that if the Anti-Saloon League alone is singled out and nothing is done with respect to other organizations that have pursued the same policy it is proof that it is not a supposed violation of the law, but a desire to punish and silence the league that has actuated the investigation.

"Let me make myself clear. The Protestant churches that are back of this movement have no fear of any disclosures concerning its operations and activity, but they know their rights, and what and who are against them, and they are organized for as long a fight as may be necessary to vindicate the principles of righteousness for which they stand.
"In the mean time we wish to place on record that we openly defy the Assembly to silence us or to stop this kind of work."

Whether Colonel Roosevelt will take a prominent part in the fight against the Gillett bill has not been made clear. He was opposed for election last year by the Anti-Saloon League. Roland W. Hayes, the negro tenor, who made his first appearance in New York a year ago, gave a second recital at Acolian Hall last evening. His naturally fine voice was in excellent condition and controlled with skill and intelligence by the singer. It was not surprising to hear him sing songs in English with uncommonly fine diction, but his field is not limited to negro spirtuals or English songs of a light nature. He has mastered the difficulties of foreign languages, and in this respect his achievements are remark-

able.

Last evening there were three French numbers on his program, "Le Reve," from Massenet's "Manon"; Faure's tation au Voyage." Both the operatic aria and the song by Duparc present formidable pitfalls for those inclined to smear words or blur phrases, but he sang all three in French with consummate art and a purity of diction that might well be envied by many singers. In other years he has been equally successful with songs in German and Italian.

This was due, he said Weber told him, to the increased cost of materials and labor. The witness said losses in stock transactions of the corporation had amounted to about \$400,000, and had been deducted on the tax return. Weber told him, Schlanger testified, that counsel had advised such a procedure. Schlanger recounted the frequent luncheons at various hotels, at which that Weber had suggested that he and Gropper quit the government's service and go into an accounting partnership. When Schlanger said that he was a fraid of the financial risk involved, he declared Weber told him there was no cause for worry on that score. Gropper, who finished his testimony, was not on hand when court opened. He explained when he was brought into court that he was not feeling well. Gropper said that all except the first conversation he had with Weber about money were for getting Weber to make a bribe offer. He declared he was acting under instructions from superiors.
